# SUMMER 2010 AVAILABILITY

**\*\* STOP BY BOOTH #6027 AT PANTS THIS WEEK TO SEE US! \*\***

## LARGEST SELECTION EVER!

Cavano's is now carrying more varieties than we ever have in the past! In fact, we've added over 50 new plants since our 2010 catalog! Check our availability each week for the newest selections as they become available.

## Tom's Top Dogs

**Polemonium 'Stairway to Heaven' #1** – A lovely shade native with finely cut green and white variegated foliage and delicate clear blue flowers in spring.

**Ajuga 'Black Scallop' 1qt** – We can't seem to grow enough of this plant! Glossy black-purple foliage with scalloped edge is stunning! Makes a gorgeous groundcover and is equally attractive in planters!

**Geranium 'Rozanne' #1 & #2** – Blooming now! Very long blooming perennial geranium with dark, violet-blue flowers. Stunning in mass! Perennial Plant of the Year 2008.

**Plumbago (Ceratostigma plumbaginoides) 1qt, #1 & #2** – Blooming now! Glossy green foliage and brilliant, deep true-blue flowers! Foliage turns burgundy-red in the fall giving it three seasons of interest!

**Verbena 'Homestead Purple' #1 & #2** – In full bud and bloom! Very fresh-looking crop!

**Hosta 'Guacamole' #1** – Glossy avocado green foliage with darker green margins and lots of large white blooms.

**Achillea 'Moonshine' #1 & #2** – Blooming now! Bright lemon yellow flowers on silvery-gray foliage.

**Artemisia 'Silver Mound' 1qt & #1** – Nice mounds of soft silver foliage.

**Lavender 'Provence' #1** – Budding now! Nice full pots of very clean foliage. Delightful lemony-fragrance. A must-have for every herb and flower garden!

**Iris ensata 'Variegata' (Variegated Japanese Iris) #1** – Very striking creamy white and green, vertically striped foliage! Very adaptable to both moist and drier environments.

**Lysimachia num. 'Aurea' (Creeping Jenny) #1** – Chartreuse foliage with graceful trailing habit. Makes a great mat-forming groundcover especially in damp areas.

**Lamium 'Herman's Pride' 1qt** – Graceful trailing habit makes this plant great as a groundcover or in hanging baskets and planters. Very vigorous!

**Ornamental Grasses** – Available in a huge variety of colors and sizes, offer 4 seasons of interest, are low-maintenance and deer resistant, grow quickly, help stabilize soil, are largely unaffected by pests and diseases and are extremely versatile. Most of ours are very mature plants, more than a year old! Some of the best this week are:

**Calamagrostis 'Avalanche' #1 & #2** – Very strong green and white variegation – matures to 4-5 feet in height

**Carex 'Evergold', 'Ice Dance' & 'Silver Sceptre' #1** – Three different variegated sedges are all stunning right now!

**N = Native    NS = Native Selection**

Leymus 'Blue Dune' #1 – Metallic blue-gray foliage is striking! Very drought, sun and salt tolerant. Wow!  
 Miscanthus 'Adagio' #1 & #2 – One of the nicest dwarf Miscanthus! Will soon get lovely, soft pink plumes.  
 'Gold Bar' #1 – Strong green and gold horizontal variegation on compact foliage. Very rust resistant!  
 'Gracillimus' #1 & #2 – Graceful, cascading habit, very narrow foliage and reddish plumes in late summer-early fall.  
 'Cabaret' & 'Cosmopolitan' #2 – Two large, strongly variegated grasses with thicker blades than most varieties.  
 'Morning Light' #2 – Very slender, variegated foliage with graceful, arching habit.  
 'Strictus' #2 – Also known as *Porcupine Grass*, very similar to *Zebra Grass* but with a more upright habit.  
 Pennisetum 'Alopecuroides' #1 & #2 – Plumes! Foxtail-like plumes appear almost white in the sun.  
 'Hameln' #1 & #2 – Plumes! By far the most popular grass on the market! Compact habit & long-lasting foxtail plumes!  
 Sorghastrum 'Indian Steel' #2 – A tall Prairie grass native to North America. Very showy plumes later in the season!

### Heuchera (Coral Bells)

'Peppermint Spice' #1 – Very similar to 'Green Spice' but flowers are a soft rose-pink color.  
 'Plum Pudding' #1 & #2 – Beautiful plum purple foliage with a very slight silver overlay. Nice, compact habit.  
 'Georgia Peach' #1 – Large strawberry-peach leaves with a slight silver overlay. Gorgeous!  
 'Chocolate Ruffles' #1 – A truly unique and graceful variety with chocolatey-green leaves and heavily ruffled edges that curl to reveal their royal purple undersides. Thrives in mid-Atlantic summer humidity.  
 'Lime Marmalade' #1 – Ruffly, lime-colored foliage is stunning! Much more heat tolerant than the other lime varieties. Looks just like 'Marmalade' but lime colored.  
 'Green Spice' #1 – Lovely green leaves have a soft silver overlay and deep purple venation in cooler weather. They also turn orangish in the fall. Delicate white flowers in late spring-early summer.  
 'Chocolate Veil' #1 – Huge leaves are chocolate and green with burgundy-purple undersides and soft silver veil.  
 'Plum Royale' #1 – Unlike any purple Heuchera you've ever seen! Huge, extremely shiny, bright purple leaves with darker purple venation. Develops a light silvery-blue overlay in fall & winter. For best color retention plant in sun.  
 'Electra' #1 – Electrifying chartreuse foliage with red venation that darkens as the weather cools and persists through winter! Wow!

**Echinacea (Coneflower)** – When it comes to Echinaceas, we have a little of everything! Purples, pinks, oranges, yellows, whites, doubles, singles, semi-doubles and a variety of different heights and flower sizes.  
 'Tiki Torch' #1 & #2 – Blooming now! Bright pumpkin-orange flowers on strong stems. The spicy scented flowers are a magnet for butterflies, hummingbirds & Goldfinches! Try planting in mass to set any garden ablaze!  
 'Harvest Moon' #1 – Fragrant, golden-yellow flowers with a rusty-orange cone.  
 'Avalanche' #2 – A short, white selection with a striking abundance of snow-white blooms.  
 'Sunrise' #1 – Pale lemon-colored petals surround a golden-green cone. Lovely fragrance!  
 'Kim's Knee High' #2 – Deep, true-pink flowers on compact plants. Shorter than most coneflowers at only 24" tall.  
 'Marmalade' #1 – This one isn't blooming yet, but we're so excited about it that we had to include it! Will soon sport double flowers the color of fresh marmalade with tangerine-orange highlights!

### TERMS LEGEND

SMALL BUT ROOTED – SMALL TOPS, FULLY ROOTED.

READY SMALL – FOLIAGE IS NOT QUITE COVERING RIM OF POT, BUT FULLY ROOTED.

READY SOON – PLANTS ARE ALMOST READY, BUT BOTH THE TOPS AND THE ROOTS ARE A LITTLE LIGHT.

NICE TOPS SMALL ROOT – NICE, FULL FOLIAGE BUT ROOTS ARE NOT FILLING POT.

READY – NICE FOLIAGE AND FULLY ROOTED.

RETAIL READY – FULLY ROOTED AND HAS EXCEPTIONALLY NICE FOLIAGE.

EXTRA NICE – WE FEEL THIS IS A MUST HAVE THIS WEEK!

BUD AND BLOOM – FULLY ROOTED, ATTRACTIVE FOLIAGE, FLOWER BUDS ARE OPENING

PAST BLOOM – ATTRACTIVE FOLIAGE & FULLY ROOTED, BUT FINISHED BLOOMING.

READY TRIMMED – FULLY ROOTED BUT FOLIAGE SLIGHTLY CUT BACK.

CUT BACK – FULLY ROOTED BUT ALOT OF FOLIAGE HAS BEEN REMOVED.

RE-FLUSHING – REFERS TO A PLANT THAT HAS PREVIOUSLY BEEN CUT BACK AND IS NOW BEGINNING TO SHOW SIGNIFICANT NEW GROWTH.
